Best Period	From April to October
Cheap and Chic Advice	Very well positioned and reachable by boat; the most perfect Church for weddings Venice.

This Renaissance Church is a very special church both from an historical-art perspective and for the sentimental value that the Venetians confer it. Unlike all the other churches in the city which are the result of numerous overlapping of styles, it was founded more recently and designed in Venetian Renaissance architecture by Pietro Lombardo in the XV Century

Thanks to its architecture, its position (close to Ponte Rialto) and the possibility to reach the Church by the water, this Church is our favorite venue for Catholic Venice weddings!
