Cheap and Chic Advice	It boasts the most breathtaking view of Italian Riviera. If you have elderly guests, though, is not the best location because the castle is only reachable by walk via an uphill path.

A Portovenere wedding. A Medieval fortress which stands proudly in a superb strategic viewpoint high above the waves, a splendid gulf and a fairy chapel. The castle's terrace can be reached only by foot. It is an uphill walk of about 10 minutes and not suitable for people with walking difficulties due to the steps. But once you are at the castle you will be priced by an unforgettable panoramic view of Palmaria island and the Gulf of the poets (with the Lerici fortress far at the horizon).
