Cheap and Chic Advice	A suggestive Church within walking distance from hotels and restaurant. Take a boat tour after the ceremony!

A Three-aisled basilica almost built in the XIV Century and renovated in 1957. Its beautiful and famous bell tower, so harmonious in its proportions, is from 1650.

Its façade is enriched by a big fresco portraying Saint Christopher. A flight of steps will lead you at the entrance of the Church.

Inside the Church is simple but very suggestive. Impressive columns and precious works of art with frescoes.

It has perfect size either for small or large catholic weddings in Varenna due to its intimate atmosphere.
